Chatbot

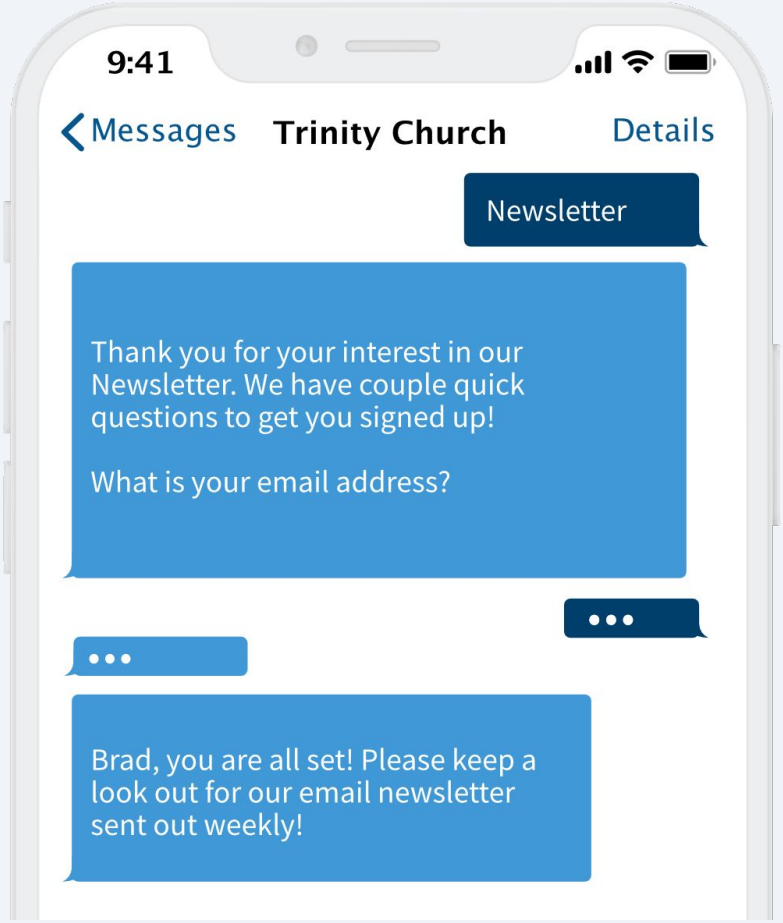
# Newsletter Sign-Up

Use chatbots triggered based on keyword or phrase to allow church members and visitors to join a newsletter. Ask survey questions and collect data for an opting into a digital newsletter.



Chatbot

# MinistryPlatform Integrated Actions

Chatbots responses can be seamlessly integrated into your MinistryPlatform.
The best part is you can use multiple integrations at a time to connect to all these areas:

- ✓ **Event Registration**
- ✓ **Communication Messages**
- ✓ **Publications**
- ✓ **Milestone Recording**
- ✓ **Contact Matching and Creation**
- ✓ **Household Congregation Updating**
- ✓ **Feedback Entry Creation**
- ✓ **Pledge Creation**

With even more Actions on the Chatbot to streamline records and tasks or even take a payment

# Custom Forms work with Integrated Actions

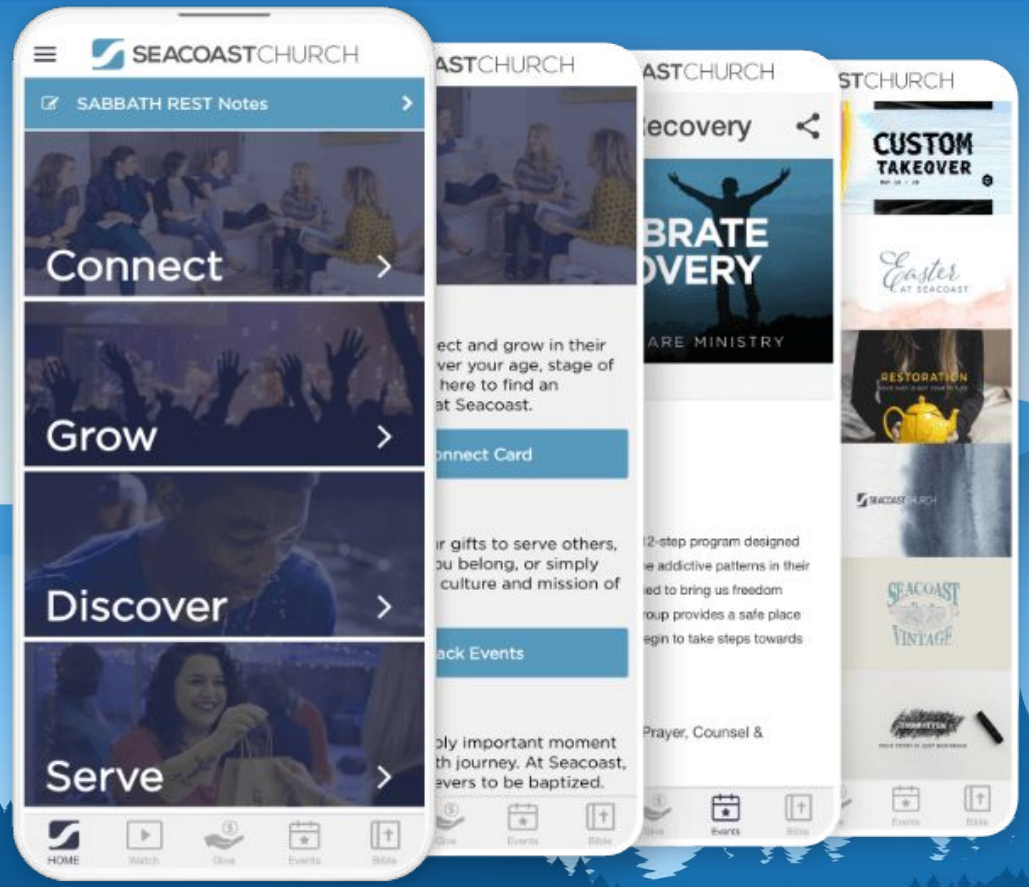
Maybe you have a longer form or you want to offer an option different from a text repsonse.
You can use a custom form for all the same features too:

- ✓ **Event Registration**
- ✓ **Communication Messages**
- ✓ **Publications**
- ✓ **Milestone Recording**
- ✓ **Contact Matching and Creation**
- ✓ **Household Congregation Updating**
- ✓ **Feedback Entry Creation**
- ✓ **Pledge Creation**

## Mobile App

# Engage your Church Ultimate Integration

Connect your congregation and reach new people with a custom church app engineered to engage, specifically designed to put your church message in the pocket of your community with deep integration.



# The Church App Platform for Christian Churches like Yours.

### In-Application Giving

Increase your growth independent of weekly attendance — In-Application one-time, recurring, scheduled, mission trip, and special event giving.

### Stream Messages

Watch, listen, or download sermon messages. Stream MP4, Vimeo, YouTube with an in-application video player for maximum app multi-tasking.

### Premium Custom Design

Our skill developers build your application with a premium custom design based on your church's desired look-n-feel, fully tailored to each church.

### Advanced ChMS Integration

Cutting Edge platform-wide seamless integrations for today's top ChMS providers. ChMS integrated event finder, group finder, campus finder, and more.

### Powerful App Designer

Publish content in real-time with our powerful drag and drop App Designer. Customize and build-out in-application pages with rich, polished features.

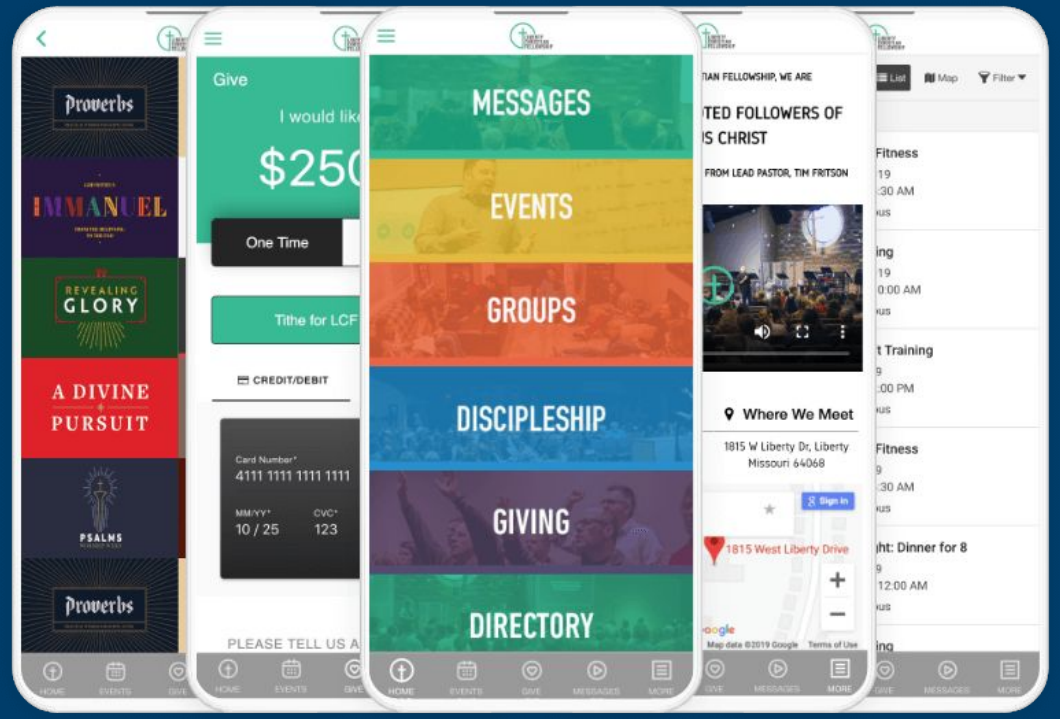
### Push Notifications

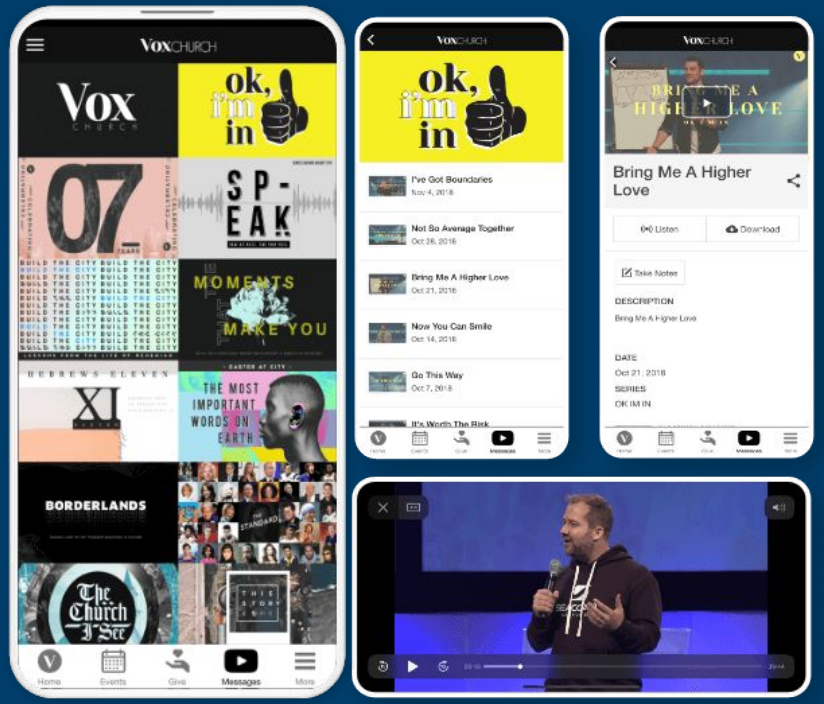
Connect your congregation with push notifications. Set up multiple push channels to deliver notifications based on user subscription preferences.

## Mobile App

# Premium Custom Church App. Tailored to your Church.

Our skill developers build your application with a premium custom design based on your church's desired look-n-feel. Fully tailored to each church and engineered to provide an engaging, beautiful, fast app experience. Let our team provide your creative team with the custom look they want. Get a custom look today and say goodbye to cookie-cutter apps.





## Mobile App

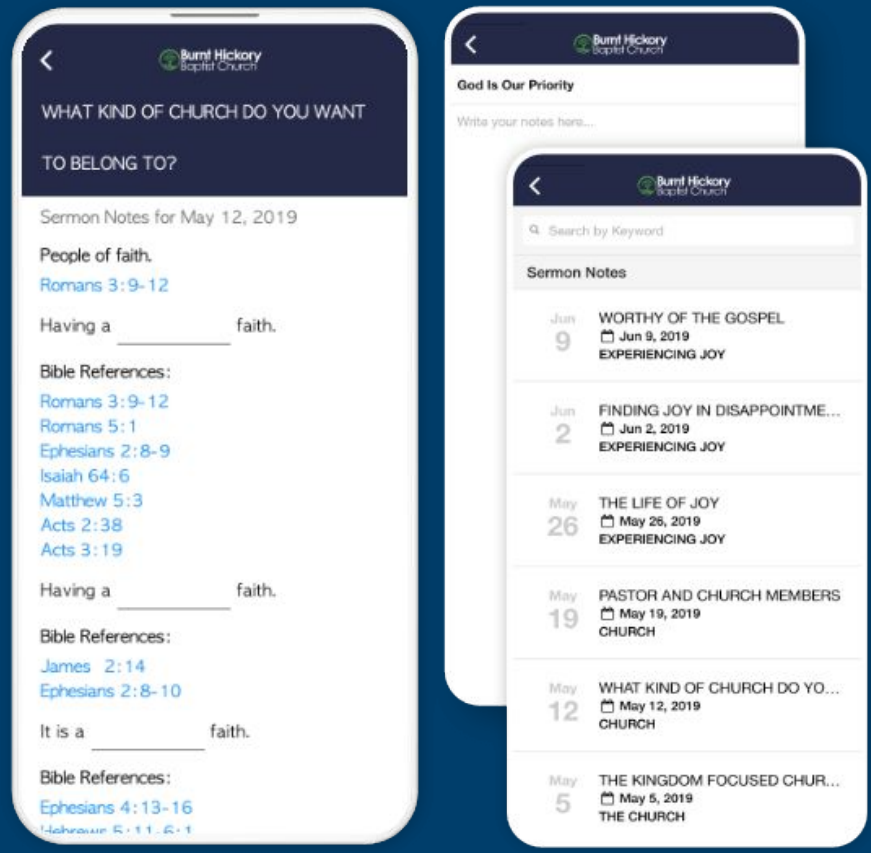
# Sermon Messages

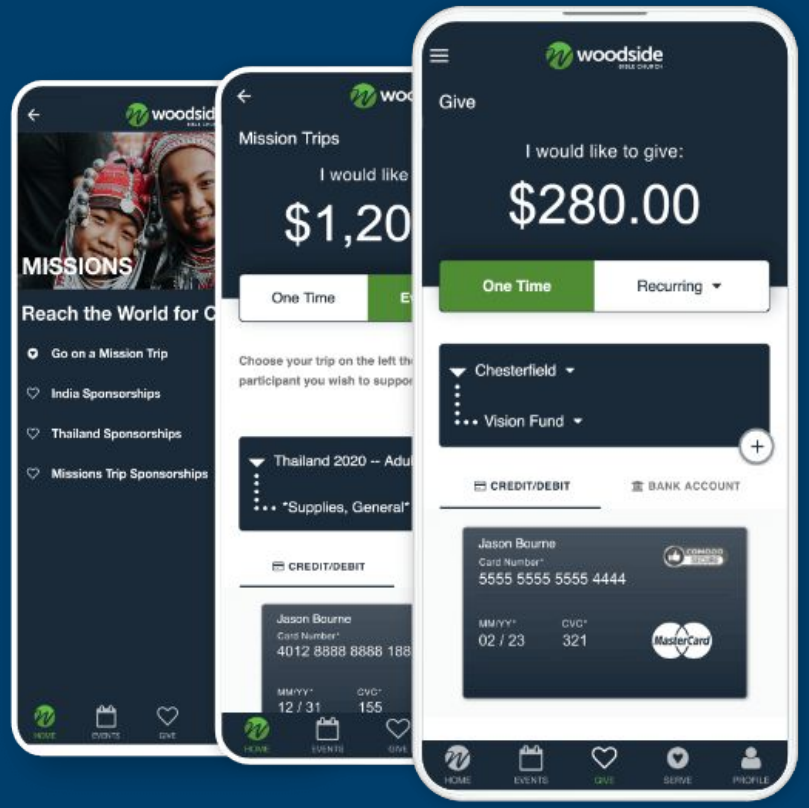
Watch, listen, download, and take notes with sermon messages. Stream MP4, Vimeo, YouTube with an in-application video player for maximum app multi-tasking. Fully automatic sermon message syncing from your existing media provider including WordPress, Ekklesia360, Rock RMS, or any CMS with an open API. Don't have a current media provider? Take advantage of our powerful sermon media center in the mobile application control panel.

Mobile App

# Interactive Notes

Engage your congregation with interactive message notes. Create custom interactive sermon notes for any message supporting fill-in-the-blank, multiple-choice, and many more. Users can save interactive notes locally or email a copy to your inbox. Additionally, users can create private notes on almost anything. Already have sermon message notes in PDF format with each message? Not a problem, we support PDF notes also.





## Mobile App

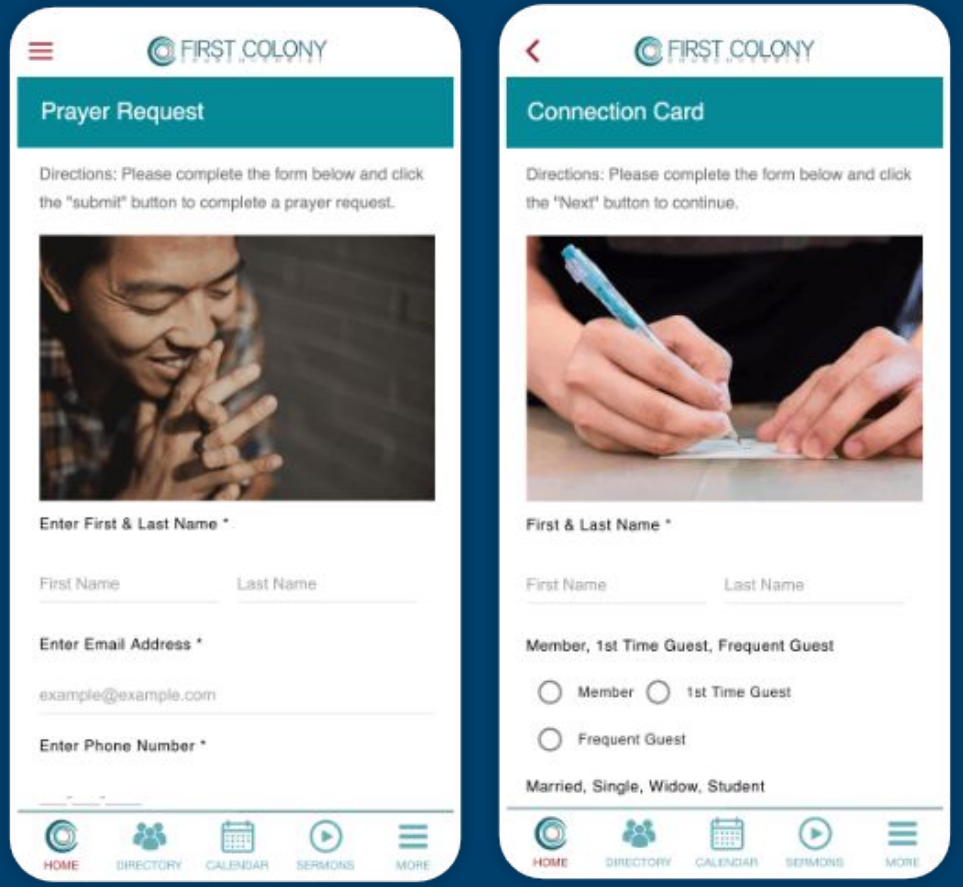
# Church App Giving

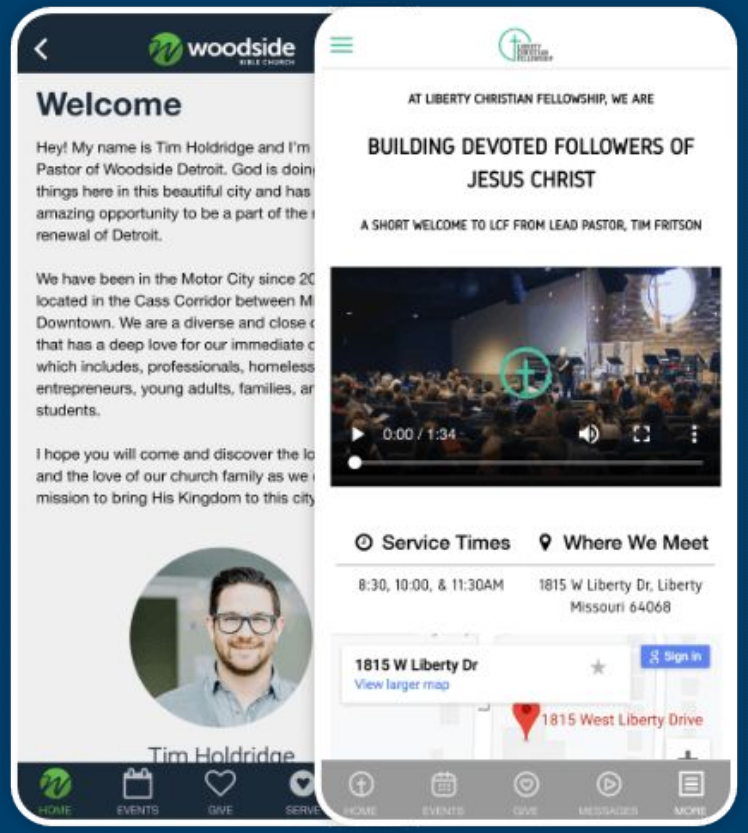
Increase your growth independent of weekly attendance. Let your donors give one-time or recurring within seconds with in-application giving. Create dedicated app pages for mission trip giving, special event giving, and more. Manage recurring schedules, payment methods, contact information, and text giving all from with-in your church application.

Mobile App

# Flexible Custom Forms

Create in-application custom forms for any purpose such as prayer requests, connection cards, school payments or capital fundraising, and more. Take advantage of our courtesy form creation service or create forms with our visual drag-n-drop form builder. View, search, or export submissions directly from the Online Giving control panel. Use our App Designer to place custom-forms in any location from within your application.





## Mobile App

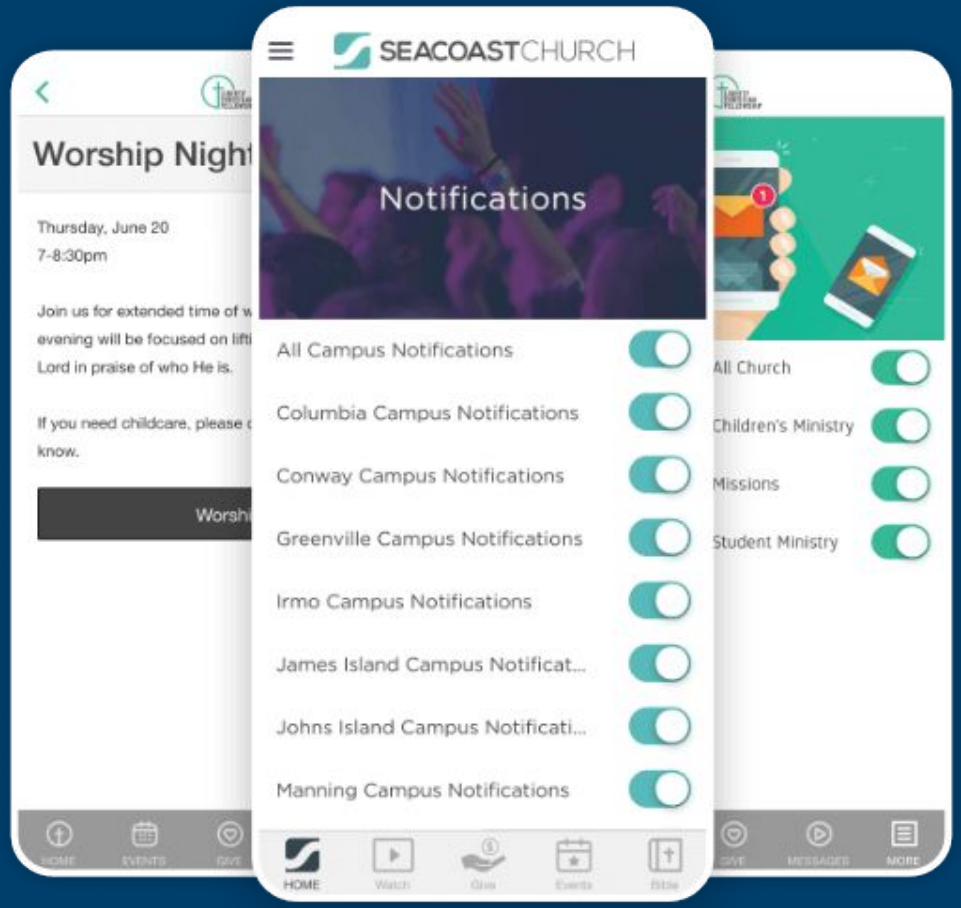
# Feature Rich Components

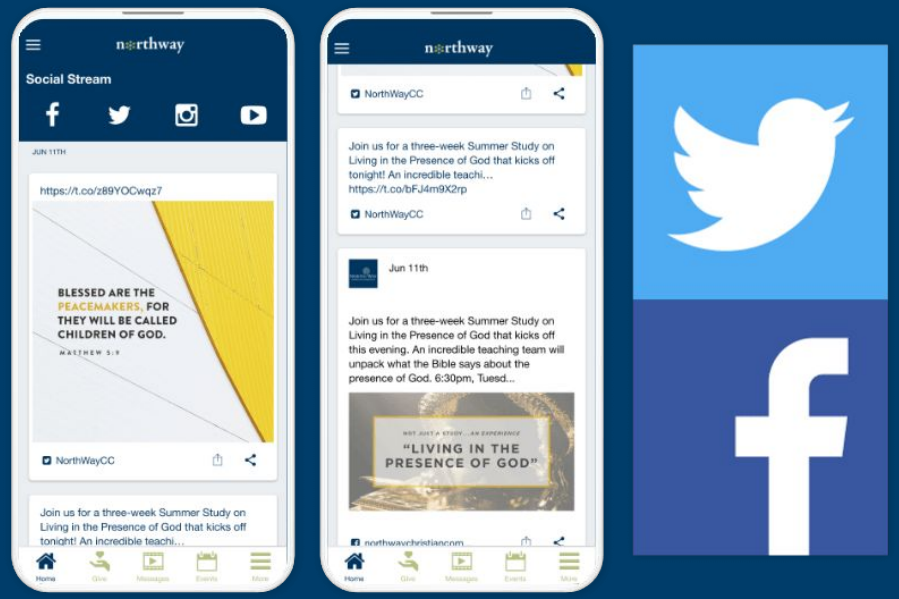
Our full mobile app platform rich in component features to allow your creative team the tools it needs to build out unique and engaging application content. Create mobile application pages with interactive maps, videos, slide-shows, call-to-actions, themed buttons, grids, web views, custom HTML, verse of the day, and more. All backed up by world-class support, including courtesy mobile app page design services.

Mobile App

# Push Notifications

Connect your congregation with push notifications. Setup multiple push channels to deliver notifications based on user subscription preferences. Deliver notifications with call-to-actions that drive users to locations in the application or out to a specific page on your church website. Send out campus or category-specific notifications to keep your congregation updated daily.





## Mobile App

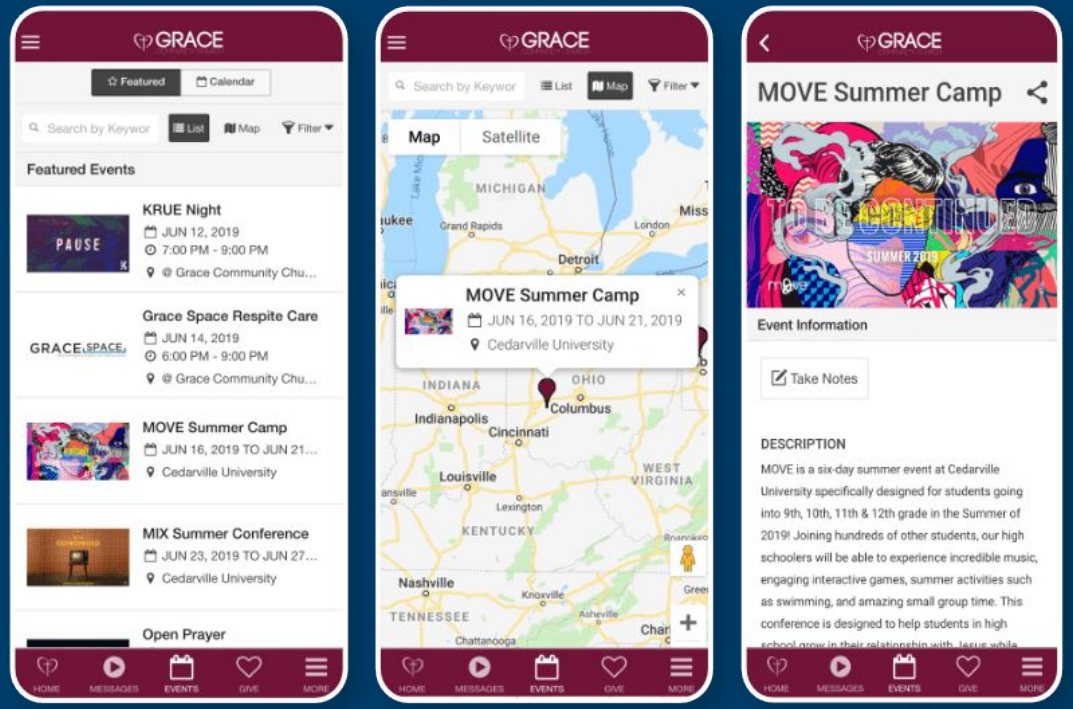
# Social Feed

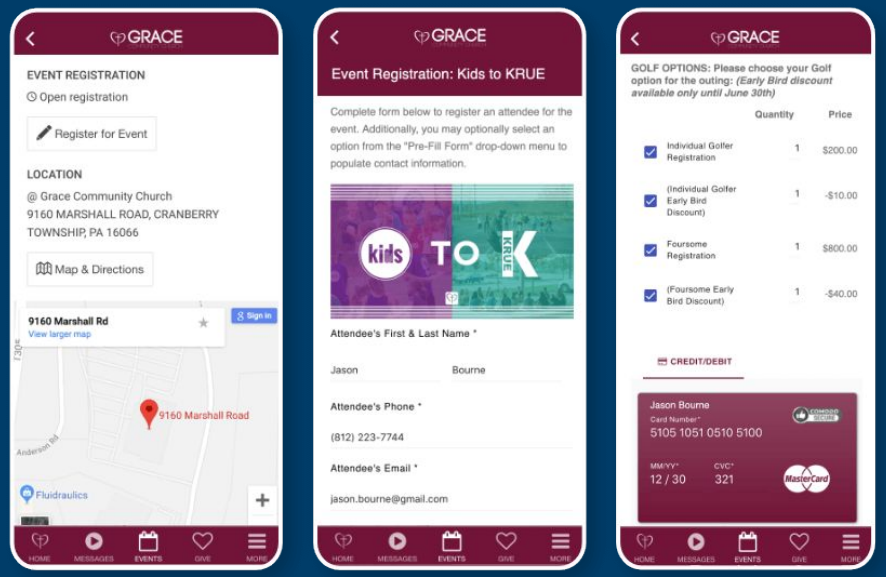
Engage your app users with the latest posts from both your church Facebook and Twitter accounts in a unified social feed directly in the application. Capture attention and hearts with the unified social feed that engages your congregation with the latest social media posts and images.

Mobile App

# Integrated Events

Powerful ChMS integrated church mobile app event calendar and event registration. Event data cached for speed directly from your ChMS provider. Beautifully promote your featured events and allow users full access to your entire event calendar. Let your church users search and find events of interest based on keyword, campus, ministry, event type, and much more. Browse, search, and filter events with interactive Google maps. Take notes on an event, share it on social media, or add it to your device calendar.





## Mobile App

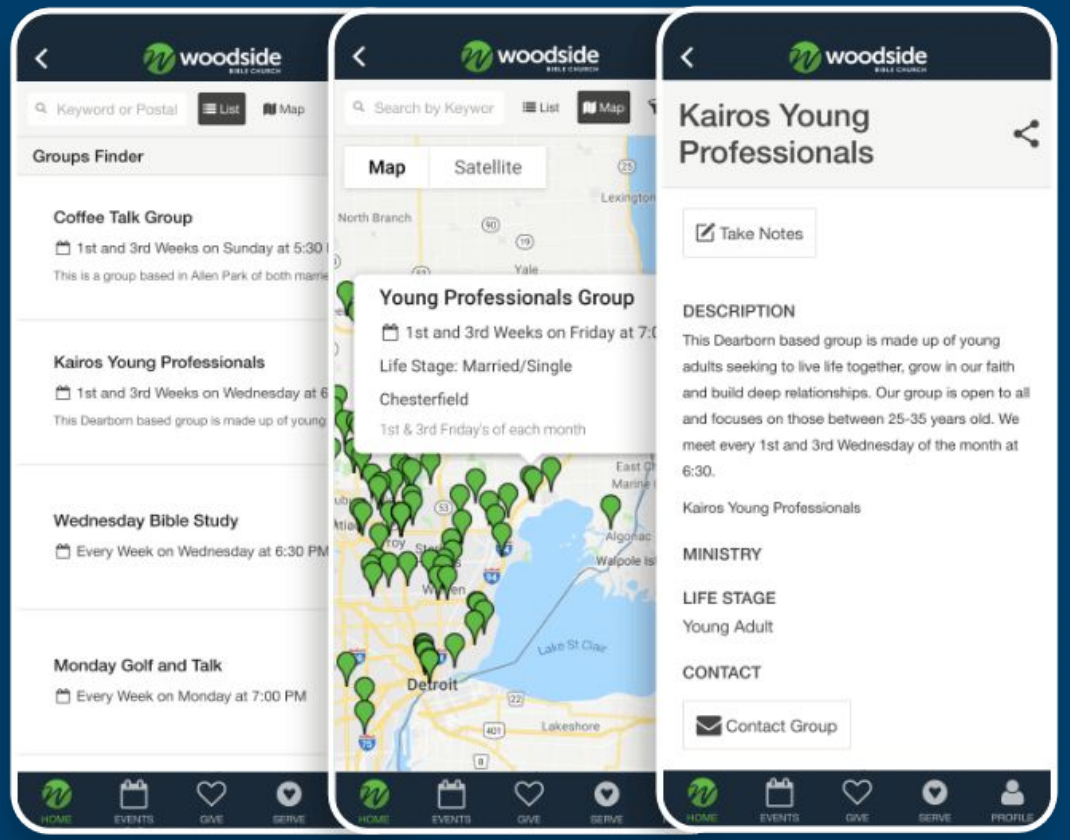
# Integrated Event Registration

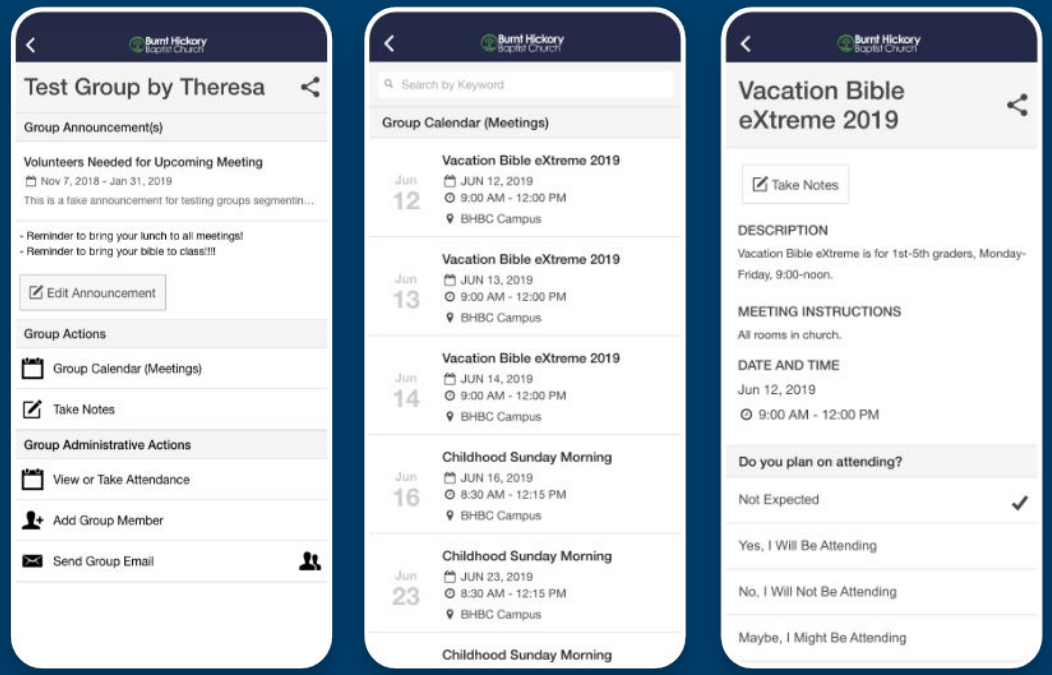
Simple and easy to use church app event registration for both free and paid event sign-ups. Deep ChMS integration supporting ChMS custom-forms and registration payments all from within the application. Unified payment experience allowing users to pay using saved credit/debit cards and electronic checks (ACH) for rapid event registration payment.

Mobile App

# Integrated Groups

Advanced ChMS integrated church mobile app groups finder. Allow your congregation to quickly find the perfect group no matter if it's a small group or a Sunday school group. Group data cached for speed directly from your ChMS provider. Let members connect by searching and finding events of interest by keyword, campus, ministry, meeting day, life interest, and much more. Browse, search, and filter groups with interactive Google maps. Add notes about your favorite group, share the group on social media, or contact the group to join directly from the church app.





## Mobile App

# Integrated Group Attendance

Deeply ChMS integrated group attendance taking and private groups feature. Allow group leaders to view/take attendance, message group members, add new members, publish announcements, and more. Group members can view and record interest in upcoming private group meetings and take notes for a group meeting directly in the application. All fully integrated and secured behind the application login with security roles from your ChMS provider checked and honored.

## Mobile App

# Integrated Event Check-in

Shorten church kiosk check-in lines with a fast-pass mobile app check-in. Mobile app users can register and check-in events before arriving at the event and scan a QR code to obtain their check-in labels quickly. Speed up your kiosk check-in lines with mobile app check-in. Church mobile app check-in is integrated with ChMS to record attendance upon arrival and scanning of QR code from mobile devices. Honors ChMS event configuration to ensure only events with check-in enabled are displayed. Your church mobile app users and families will love mobile app check-in!
