FAQ

Should I build a new page for my Widget?

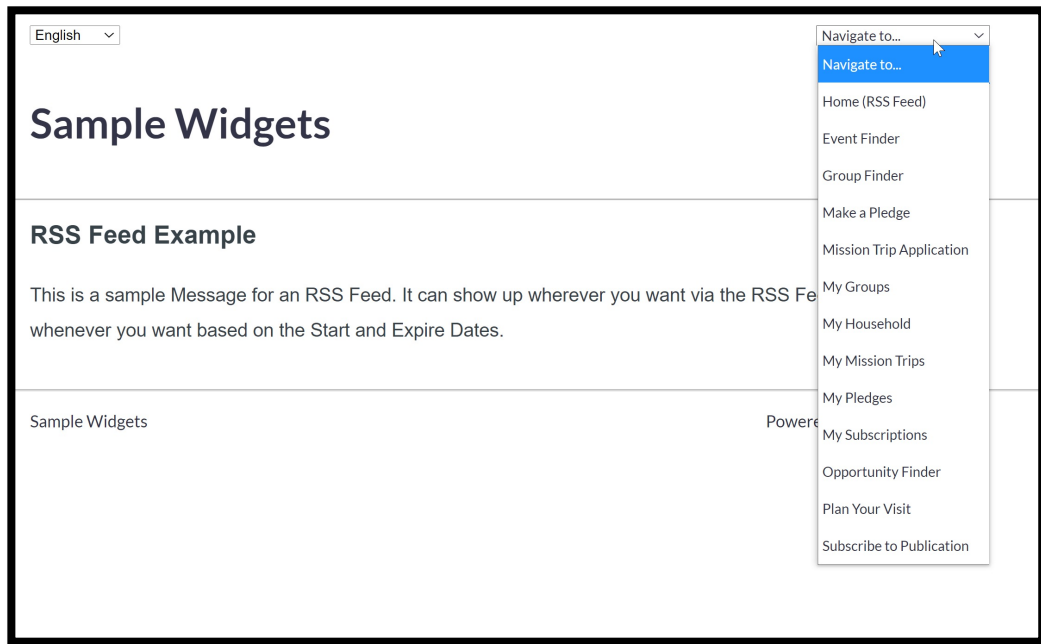

- **Possibly!**
- **Finders? Possibly...**
- **Finder Details? YES!**
- **Add to subscriptions? With Hesitancy!**
- **"My" widgets? Probably...**

FAQ

Can I see my Widgets without access to my website?

- **YES! Most of them are available in your widget test page**
- **Add widgets to the end of your MP URL**
<https://my.widgetchurch.com/widgets>
- ***Do NOT use the sandbox for public consumption***

Where do I start?

With a simple Widget (Custom Form, My Groups)

Create a new web page to play on (don't put it in your site menu yet)

Add the following code to the page:

- Update the Highlighted URL to your website in the first section of code
- Add the GUID from one of your Custom Forms in the second section

You have your first widget!

If the [shared script](#) hasn't been added to your website, **add** it to your desired webpage, replacing my.churchname.net with your church's base MP URL.

```
<script id="MPWidgets" src="https://my.churchname.net/widgets/dist/MPWidgets.js"></script>
```

Add the Custom Forms Widget to your church website by placing this snippet of code in the body of your chosen webpage.

```
<mpp-custom-form formguid="de790e5d-b083-4a94-b910-b9fe531f52f0"></mpp-custom-form>
```

Tip: While not mandatory, this snippet would typically be placed inside a <div> element with the class "container."

Bonus – Understanding Finders

Group Finder/Group Details

Two pages on your site

Page 1: Group Finder

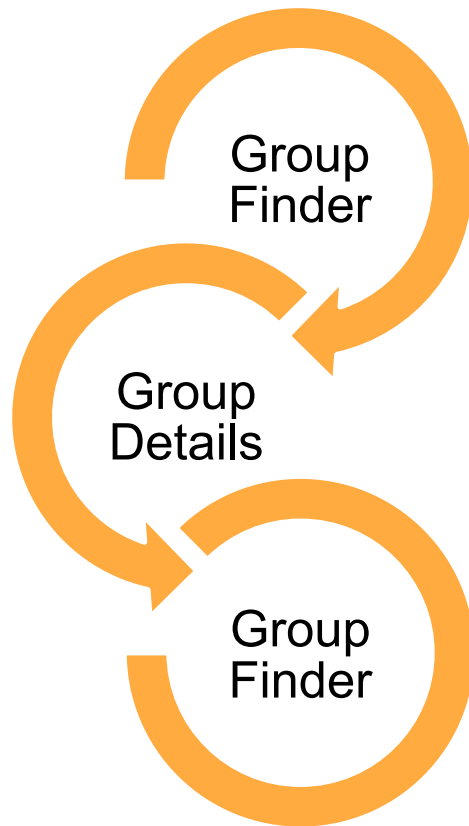

Page 2: Group Details

Group Finder:

```
<mpp-group-finder targeturl="/group-details"></mpp-group-finder>
```

Group Details:

```
<mpp-group-details returnurl="/groups"></mpp-group-details>
```

Question Time!

What questions do we have?
Add yours now!

THANK YOU!
